**BRINGING TOGETHER
EUROPE'S PENSION FUNDS
SINCE 1997**

Introduction

IPE is a multinational, market-leading niche financial information provider which is both European and global. It is focused on pension funds and other institutional investors, and those who serve them; all of IPE's products and services have the central objective of facilitating and enhancing interaction between these groups, specifically between the buy and sell side of the industry.

Our readers trust and value the IPE brand both for the integrity of its products and because they know that we understand our readers, their needs, and how they change.

In 2024 we look forward to working with our industry partners to further strengthen our position as the leading source of intelligence on European pensions and institutional investment for the benefit of our senior, decision-making readership. We also look forward to developing and delivering new ideas for IPE and our family of brands alongside FDMG.

The value of IPE to our European pension fund readers

Kristín Jóna Kristjánsdóttir,
portfolio manager at IS Funds
(Íslandssjóðir hf.), Iceland

IPE is a great and reliable source of information on various topic related to pension funds and asset management. It is always on top of recent trends and relevant topics and gives an in-depth analysis on the topics it covers, helping me in my decision making as a portfolio manager.

Hans-Wilhelm Korfmacher,
Head of the Management Board,
WPV, Germany

IPE offers a broad overview of the international investment industry and always deals with current topics. This view beyond the horizon is a valuable support in our daily work.

Luc Vanbriel,
CIO, KBC Pension Funds,
Belgium

IPE sits perfectly between very tough analytical literature and a newspaper. It is our main source of information and I recommend it to every colleague who joins.

Thomas Groffmann,
Administrator/ Reserve Funds,
European Patent Office, Germany

IPE provides to institutional pension funds a broad platform of excellent quality with a good mix of content. The strategic discussions about how pension funds allocate are of particular interest for me.

Markus Schaen
Senior Fund Manager, MN,
The Netherlands

IPE covers a good variety of very current and relevant topics. It is good to read the high-level, independent and objective perspectives from pension funds in other European countries; many of them are dealing with the same issues as we are, so it is interesting to learn from their experiences, especially when they are ahead of where we are on the curve.

Ivonne Forno,
Managing Director,
Laborfonds, Italy

IPE editorial is very useful for me and my colleagues, because Italian pension funds (second pillar) are very young in terms of experience and AUM. IPE editorial provides coverage of foreign pension funds' experiences from which we can take ideas; we can also use it to share ideas regarding new and pioneering projects.

Chris Verhaegen
Former member of the board,
VRT, Belgium

IPE Magazine has always had a very good reputation in the Belgian pensions industry. It is very interesting to read what is happening at pension funds in other parts of Europe and IPE's coverage about pensions matters at EU level is also very useful. The content is delivered in a way which is easily comprehensible for the reader, and IPE Daily News keeps the coverage current and relevant with the latest information.

Philippe Rey
CEO, UMR Corem,
France

I read regularly the French media like Option Finance or l'Agefi. For our institution, IPE brings a few differentiating things such as a vision of the pension fund market in Europe and also highlights the investment strategy of our European counterparts. Every year, I also like to receive the list of European management companies and the list of pension funds, which gives us a good view of the market.

Fred Nieuwland,
CIO, Mars Nederland BV,
Netherlands

IPE is doing a brilliant job of reporting on interesting and topical issues for European pension funds.

Christoph Zimmermann,
Head of External Investments,
Compenswiss, Switzerland

I do get plenty of useful information from IPE and IPE Real Assets.

IPE MAGAZINE

IPE Magazine is the most relevant and targeted medium for investment managers and other service providers to deliver their message to the decision makers in Europe's pensions community.

Since the very first issue in 1997, IPE has led the field with a unique brand of information, analysis, news and data dedicated to Europe's pension fund community. Close connections with that community are our hallmark.

THE MOST IMPORTANT EVENT FOR EUROPEAN
PENSION FUNDS, OTHER INSTITUTIONAL
INVESTORS AND THEIR SERVICE PROVIDERS

The annual IPE Conference is long established as an important fixture in the European pensions calendar for institutional investors. Top-level international speakers with a background in politics, academia and industry practice make this event the leading international forum for discussion of the key trends and issues facing pension funds and other institutional investors. The IPE European Pension Fund Awards recognise and reward best practice and innovation among Europe’s diverse pensions providers and serve as an important benchmark. They also celebrate the contributions of leading industry figures.

At the 22nd edition of the IPE Conference & Awards in Rotterdam last December – our first fully in-person event since 2019, with the pandemic largely behind us – we welcomed some 550 delegates including 240 representing investing institutions, 54 representing consultants to the pensions industry and 184 executives from our sponsors. This is a fantastic recovery after the pandemic, and against a backdrop of considerable challenges that increase workload.
